

Hackathon Hardware Inventory

5 Robotic Arm Edge boxes

1 Ourlink WiFi Stick with mini CD

1 Raspberry Pi 2 box

1 Raspberry Pi Starter Pack with

- 1 B+ Classic Case

- 1 USB Console Cable

- 1 bag of pins

- 1 raspberry badge

- 1 M/M rainbow jumper wires

- 1 full sized breadboard (tan board with numbers, abcde, holes)

- 1 Pi Cobbler B+ (black, flat strip of wires)

- 1 power cord

1 SanDisk adapter and 1 4GB microchip

5 Electric Imp April (little green chips in silver wrapping)

3 Bluefruit LE SPI Friend (blue chips with black and silver piece like a ladder)

5 F-F Jumper 300mm (rainbow strips)

5 M-M Jumper 300mm (rainbow strips)

1 PiTFT touchscreen (black box)

1 Adafruit Starter Pack (big black box) with

- 1 power supply (white box)

- 1 arduino (colorful box)

- 1 battery holder with switch

- 1 proto shield (blue flat piece)

- 1 tiny breadboard (white with holes. Looks like a sewer.)

- 1 rainbow wire bundle (separate wires)

- 1 bag of pins

- 1 USB adapter

6 Raspberry Pi 3

10 Breadboards

4 Sensor Kits for Arduino

4 Edison Standard Power On Board Antenna + Arduino (brown boxes)

4 MaKey MaKey Deluxe Kit (red boxes)

1 big red box with:

5 electric imps (white memory cards with devil)

10 barrel jack adapters

5 character LCD (red and black rectangle pieces)

10 flex sensors 2.2" (gold and white strips)

10 flex sensors 4.5"

10 vibration motors (silver circles with red and blue wires)

5 neopixel rings

5 arduino pro mini (small blue chips)

20 pushbutton switches (black little nubs)

2 LED RGB Strips

Jumper Wires
